CAB newsletter update 2nd June 2022

The GRS has agreed to partner with ARDC in the Data Carpentries and prepaid for 2 seats for UWA staff to train as

Instructors https://docs.carpentries.org/topic_folders/for_instructors/new_instructors.html.

If you are interested in this training, ideally in the August round and with a mind to put into practice the training at the ResBaz in September, please let me know. There is a scheduled training session in early June also, so if someone is very keen we might be able to put a person in that round.

Best regards,
Dave
